

JUNE 1 – NOVEMBER 30, 2026 HURRICANE PREPAREDNESS

Stay tuned to TV, Social Media, NWS, Radio during a hurricane threat:

- ❖ Shutter or board windows; secure outdoor objects or bring inside; stock up on food and water; fuel up vehicles; pack a tote of important papers and other important items (see preparing a disaster supply kit); create and/or have a basic emergency plan; turn off utilities at main valves if instructed to do so; secure your pets, do not leave them behind during a disaster; evacuate your home if it is severely damaged; contact your local emergency management office to learn evacuation routes and shelters in your area;

Hurricanes threaten areas of the U.S. along the Atlantic and Gulf Coasts.

Can cause extensive damage due to winds, flooding, and tornadoes.

Peaks are from mid-August to late October.

Hurricane winds can range from 74mph to more than 150mph.
